

OPS Call

09/09/2017 1730

### **Charlie**

- Water ops and land ops
- Found 14 land targets
- 32 vessel targets
- Secured pad
- START was beginning to sample
- Monday morning, beginning to start picking up oil containers
  - o 2000 gallon oil spill (from 3 tanks) – on road
  - o Lumberland
  - o RPs helping clean
- City Park update
  - o A train that is inside of a park (decorative piece) – when the flood happened, oil began leaking from the train and the flooding caused the oil to spread
    - There is a still oil inside the train, but no intentions of removing the oil right now.

### **Bravo**

- AT team out today
- Water and land teams today
  - o Vegetative debris on the water side is covering up most of the debris
  - o They have some health and safety concerns
  - o Coordinated with District 12 and TCEQ of the empty containers
  - o Proposing potential staff reductions
    - Region 2 OSCs, but ,ay have worked themselves out the job
    - Staff reduction over the next 2-3 days (just a proposal as of now)

### **Alpha**

- 1 haz. Eval. Team to go out on water and then check a few places on land
  - o Were able to check 2 locations, but the last location was not seen due to weather conditions
- START teams went out today as well
- 55 samples are planned for tomorrow

Signed mission assignment for 1.5 million

- Sent out a survey to counties to see what they are doing for water sampling

## **Austin**

- Vector Control – state has been performing the spraying
- Tonight starting in the eastern counties

## **Safety**

- Debris lines

## **REOC**

- Alpha – set up pad last week
  - o EU has not seen any samples yet. Where are you sending the samples to?
  - o Alpha test samples went to Test America in Corpus Christi (pre-pad samples)
- Put an end to 24 hour OPS in Austin
- Successful in transitioning to one report a day rather than 2

EU caught wind if the USCG took samples?

- If they are sampling, we need to know what they're doing
